We will continue to post operational updates on the municipal website: litchfield@mrcpontiac.qc.ca

We encourage everyone to continue to follow the hygiene and precautionary practices established by the Province and the World Health Organization. Special attention must be paid to the elderly, especially individuals 70 years of age and over, since they are at greater risk of complications. Every individual also has their part to play to reduce the risk of spreading viruses. We thank you for your cooperation at this crucial time.
